# artist's CATALOGUE

# welcome

- Thank you for visiting our 39th Open Studios Art Show at Wimbledon Art Studios (WAS). It is because of you that our show has become what it is today: a well-established event in the London art calendar.

The four-day Open Studios event is the only opportunity for the public to visit the studios and see the work produced. It is also an opportunity for resident artists to sell their work directly to the public, and to unveil new and experimental work. You will meet artists whose work is generally shown in main international art fairs and prestigious galleries, as well as the newest emerging talent from Europe's leading art colleges.

We invite you to wander around the studios, chat with the artists, learn about what we do, and enjoy this event, which has been organised with the aim of bringing art closer to you. Your visit and your support are essential to maintain the good health of the event, which is completely self-funded.

First opened in 1993, WAS is now a recognised creative community spanning well-established and emerging artists. Work produced is extremely diverse and the 250-plus resident artists include painters, sculptors, illustrators, fashion designers, photographers, film animators, screen printers, among many other disciplines.

### **A fantastic opportunity to purchase a 'small board'**

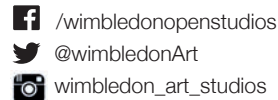

The small boards sold at the marquee are unique pieces of

artwork produced by our artists with the objective of raising funds for the show.

### **Spreading the word**

If you enjoy the show, please tell others! 'Word of mouth advertising' is essential for us. You can also become a 'friend of WAS' by volunteering just a few hours of your time.

Follow us on social networks

Once again, thank you for your support and...enjoy the show!

We look forward to seeing you again at our next show in May.
